

Wisconsin Health Care Experts and Professionals Present the “Leap into Wellness” Youth Mental Health Summit

FREE Conference Event Brings Together Wealth of Available Mental Health Resources for Youth

On October 28, 2023, the Pro Football Hall of Fame and several leading community health care experts combine resources to create Wisconsin’s most significant youth mental health care gathering ever. Bringing together mental health professionals and resources from across the state in a partnership effort to address the alarming health issues of our young people, this combined network of medical and health care specialists is set to demonstrably affect the future of our children’s well-being.

A summit of this scope and magnitude, specifically aimed at our children, has never been seen in our state before. We invite you to join us for the first ever “Leap into Wellness” Youth Mental Health Summit at the Baird Center in Downtown Milwaukee on October 28, 2023, and be a major part of this ground-breaking event and critically vital aspect of our children’s overall health.
